

Preventive Measures for COVID-19

Preventive measures for COVID-19 of the Secretariat of the House of Representatives at Thai Parliament Building, Kiakkai, are as follows:

1

Enter into Parliament Building, at Kiakkai

- All entrancers have to pass check-in point for the temperature scanning, which must not be higher than 37.5 degree of Celsius.
- All entrancers, who enter into the parliament building, must scan QR Code of “Thaichana” platform.
- All entrancers must wear face masks throughout their stay in the building area.
- Demanding for cooperation of the members of the House of Representatives in reducing the number of the followers.

2

Using Elevators

Six passengers could be allowed to access the elevator at a time and must stand at the specified positions. Being silent while using elevator is required for all users.

3

Using Assembly Hall and Committee Meeting Rooms

- Organizing a layout of the seats to maintain the social distancing.
 - MPs and attendees must wear the face mask throughout their stay in the meeting room, except, when delivering any statement in the meeting.
- Reducing the number of meeting attendees but only those involved and necessary.
 - Placing alcohol gel in front of the rooms and inside the meeting rooms.
 - The staff in charge of the meeting room must clean the room with 70% alcohol or anti-septic papers before and after the meeting is over.

4

Using Press Conference Room

- Screening the participants of the press conference by temperature scanning with a thermoscan in front of the press conference room before entering the room.
- Organizing a layout of the media journalists in the press conference room to maintain the social distancing.
- Encouraging the media journalists to wear a face mask all the time in the press conference room and keep a distance between them.
- Placing alcohol gel in front of the room and inside the press conference room.

Preventive Measures for

COVID-19

Preventive measures for COVID-19 of the Secretariat of the House of Representatives at Thai Parliament Building, Kiakkai, are as follows:

Parliamentary Radio and Television Broadcasting Station

5

- Keeping at least 1-2 meters of social distancing between a programme moderator and invited speaker.
- Changing the interview pattern of radio and television broadcasting programs by employing phone-in interview on specified issues.

Services such as (e-knowledge unit)

6

- Providing clear plastic partition to keep social distancing among members of the House of Representatives and among parliamentary officials.
- The officials who perform duties are not more than 3 persons per the period of service and they must wear face masks throughout their stay during each service and keep social distancing.

Cafeteria

7

- Organizing a layout of the seats to maintain social distancing. Two persons per table could be allowed.
- Cleaning all areas of cafeteria with 70% alcohol before opening, every 2 hours during service, and after service.

- Cooks or waitresses must wear hygienic masks and napkins throughout the time of their duties and use kitchen utensils, like tongs or pincers, when touching foods as well as clean/disinfect touched objects including vessels, dishes and utensils at higher than 90 degree Celsius.
- Closing vessels with lids for preventing contaminated foods and halting a buffet arrangement to be served with touched vessels and objects together.
- Placing alcohol and gel in front of and inside the cafeteria.

Toilets

8

- Cleaning the toilets with liquid medicine mixed with bleach or disinfectant by housekeepers.
- The housekeepers must wear face masks throughout the time of their duties. Cleaning mops and rags with disinfectant or water mixed with detergents and solarizing them frequently are the must before use.
- Placing alcohol and gel in front of the toilets.
